

CALL FORWARDING BUSY LINE-FIXED

Automatically forwards incoming calls to another preselected telephone number whenever your line is busy. You specify the telephone number to receive your calls, and it is programmed in the Telephone Company's central office when your order is placed. If the telephone number your calls are forwarded to is busy, the caller will receive a busy tone.

Notes:

1. If your preselected forward-to number is outside your local calling area, you will be charged for any calls forwarded from your local number to the Long Distance, Extended Local Calling, or Extended Calling Service number.
2. To change your forward-to number, call the Telephone Company.
