

CALL FORWARDING BUSY LINE-VARIABLE

Call Forwarding Busy Line-Variable allows you to forward incoming calls to another preselected telephone number whenever your line is busy. You have the capability to activate, deactivate, initiate or change the forward-to number as desired by dialing special codes. If the telephone number your calls are forwarded to is busy, the caller will receive a busy tone.

To Activate Call Forwarding Busy Line-Variable:

1. Press *90 (1190 for rotary or dial pulse telephones).
2. Listen for beeps followed by dial tone.
3. Dial the forward-to number.
4. Listen for beeps. (If you wish to notify the forward-to party of the Call Forwarding condition, wait and the call will be placed.)
5. Hang up.

To Activate Call Forwarding Busy Line-Variable While On A Call:

(Three-Way Calling required; and if you have Call Waiting, Cancel Call Waiting is also required.)

1. Depress and quickly release the receiver button to put your call on hold, and then listen for dial tone.
2. Press *90 (1190 for rotary or dial pulse telephones).
3. Listen for beeps followed by dial tone.
4. Dial the forward-to number.
5. Listen for beeps and resume conversation.
